**Reduced deductible for pleasure truck or all purpose truck**

**62** Subject to section 35, a person who applies for extension insurance in respect of a pleasure truck or an all purpose truck in order to reduce the deductible amount for all perils coverage under Part III of the *Automobile Insurance Coverage Regulation*, Manitoba Regulation 290/88 R shall pay an annual premium determined according to the applicable premium table in this section. The applicable premium table is determined by reference to the amount of the reduced deductible and the applicable territory or, if applicable, the commuter rate. Within the applicable premium table, the premium is fixed by reference to the vehicle's rating group set out in Table 2 of Schedule C and the insurance use. If the person is eligible for a merit rate and the truck is a vehicle qualifying for a merit rate, the merit rate discount shall be applied to reduce the premium so determined.
