PART II
ALLOTMENTS

Entitlement and criteria for allotment of quota

3 No person is entitled to be allotted a quota for a category of chicken broiler unless such person has been allotted a basic allotment and a market allotment for that category by the Board.

Facility requirement

4 Subject to section 5, each applicant for allotment of a quota and an allotment must be the registered owner or the sole operator of a facility that meets all of the requirements or standards for buildings and equipment established by the Board from time to time.

Conditional allotment

5 The Board may allot a quota and an allotment conditional upon the acquisition of a facility within a specified period of time.

Allocation to new entrants

6 From time to time the Board may select an individual or a Hutterite Colony to become a registered producer and may offer to allot a quota, basic allotment, and a market allotment for a category of chicken broiler to such person. In selecting such persons the Board may establish a system for receiving applications from such persons and a method of selecting such persons from among the applicants.

Each application shall be in writing in a form prescribed by the Board and must be signed by the applicant and accompanied by the processing fees established by the Board, and must be forwarded to the head office of the Board.

In the event the Board offers to allot a quota, a basic allotment, and a market allotment for a category of chicken broiler to a person, and such person does not accept the terms and conditions proposed by the Board in making such offer within the time specified by the Board, or in the event a person fails to comply with any term or condition established by the Board in making such offer or allotment to the person, the Board may withdraw such offer and allotment.

No individual and no Hutterite Colony shall be eligible to be selected for an allocation under this section if that individual or that Colony is or at any time has been a registered producer or has had an interest, direct or indirect in a registered producer. For the purpose of this provision any person who is or was a partner or a shareholder of an entity that is or was a registered producer at a point in time shall be deemed to have an interest in that registered producer at that time.

The fact that

- (a) the parent of an individual is or at any time has been a registered producer or has had an interest, direct or indirect in a registered producer; and
- (b) a Hutterite Colony was established from the membership of a Hutterite Colony which is or at any time has been a registered producer or has had an interest, direct or indirect in a registered producer,

shall not in itself disqualify an individual or a Hutterite Colony from being eligible to be selected under this section.

Determination of basic allotments by category

7 Subject to the provisions of this Order, a registered producer's basic allotment for each category of chicken broiler shall be equal to the number of kilograms of chicken broiler shown opposite such producer's name in the column for that category on the Basic Allotment List.

Allocation of market allotment from time to time

8 Subject to the provisions of this Order, each registered producer shall be allotted a market allotment for each category of chicken broiler for which such producer has been allotted a basic allotment.

Calculation of market allotment

9 The market allotment of each registered producer whose name is set out on the Basic Allotment List for each category of chicken broiler for which such producer has been allotted a basic allotment shall be calculated from time to time as follows:

- (a) Subject to clauses (b) and (c), the market allotment allotted to each registered producer for a category shall be equal to the basic allotment allotted to such producer for that category;

(b) If the aggregate of all chicken broilers of a category which could be produced if allocations were made in accordance with clause (a) (after any adjustment under Part V and Part VI) would be more than the anticipated market demand for chicken broilers of that category raised in Manitoba during any period of time, the market allotment allotted to each registered producer for that category shall be determined by the Board in such manner that all registered producers share, as nearly as possible, a pro-rata reduction from the market allotment that they would have received under clause (a) (applying the equivalent calculation set out in section 20) in such manner as the Board deems reasonable, so that the anticipated market requirements for chicken broiler of that category during that period of time ought not to be exceeded; provided that the market allotment of regular chicken broiler for a marketing cycle of those registered producers on the Maximum Producer Allotment List shall not be reduced below the basic allotment for regular chicken broiler of each such registered producer unless the anticipated demand for regular chicken broiler raised in Manitoba during the seven-week period in which such registered producer is entitled to market such chicken broiler falls below 5,059,422 kilograms live weight,

(i) the aggregate market allotments of a producer shall not be reduced below 10,000 kilograms of regular chicken broiler (or the equivalent of Cornish Game Hen or Roasters or a combination thereof, applying the equivalent calculation set out in section 20), and

(ii) the market allotment of regular chicken broiler for a marketing cycle of those registered producers on the Maximum Producer Allotment List shall not be reduced below the basic allotment for regular chicken broiler of each such registered producer unless the anticipated demand for regular chicken broiler raised in Manitoba during the seven week period in which such registered producer is entitled to market such chicken broiler falls below 5,059,422 kilograms live weight;

(c) If the aggregate of all chicken broilers of a category which could be produced if allocations were made in accordance with clause (a) (after any adjustment under Part IV and Part V) during any period of time would be less than the anticipated market demand for chicken broiler of that category raised in Manitoba during that period of time (hereinafter called the "Shortfall"), the market allotment allotted to each registered producer for that category shall be determined by the Board in such manner that the market allotment allotted to each registered producer for each category shall be equal to the basic allotment allotted to such registered producer for that category, and unless the Board otherwise directs, the Shortfall will be allotted by

(i) allotting approximately one-half ($\frac{1}{2}$) of the Shortfall as basic allotment and an equal market allotment to selected persons wishing to engage in chicken broiler production who have applied for registration and an allotment on such terms as the Board may deem proper; provided no person shall be entitled to an allotment in excess of 30,000 kilograms of Regular chicken broiler (or the equivalent of Cornish game hen or Roasters, or a combination thereof, applying the equivalent calculation set out in section 20) under this provision, and

(ii) allotting the balance of the Shortfall as basic allotment and an equal market allotment in units not to exceed 30,000 kilograms of Regular chicken broiler (or the equivalent of Cornish game hen or Roasters, or a combination thereof applying the equivalent calculation set out in section 20) to registered producers who have applied for an increase in their allotment, in the order in which acceptable applications were received by the Board;

provided however that in the event the Board is of the opinion that such Shortfall is temporary in nature, the Board may issue Temporary Market Allotment Permits to registered producers for a term not to exceed two (2) consecutive marketing cycles, and in an amount not to exceed, in aggregate, such anticipated Shortfall.

Any allotment of the Shortfall made pursuant to subclause (c)(i) or (ii) will be conditional upon the selected person or the registered producer satisfying the board that such party is the registered owner or the sole operator of a facility that meets all of the requirements and standards for buildings or equipment established by the board for the purpose of producing such party's proposed allotment of the Shortfall within 12 months of the date of the receipt of notice from the board of the proposed allotment.

M.R. 110/2007

Market allotment not to exceed maximum allotment

10 Notwithstanding anything set out in section 9, the aggregate market allotments of a registered producer in any marketing cycle shall not exceed maximum allotment, provided that

(a) if a registered producer

(i) has, prior to the calendar year 1980, been effectively allotted basic allotments that aggregate in excess of maximum allotment, or

(ii) has, as permitted pursuant to section 43 of this Order, been effectively re-allotted a basic allotment in excess of maximum allotment, or has been permitted to acquire an interest in a substantial holder in an entity that has been allotted a basic allotment in excess of maximum allotment,

this limitation shall not apply to such registered producer; and

(b) the aggregate of the market allotments allotted to a registered producer in clause (a) shall not exceed the basic allotment effectively allotted to such registered producer.

Limitation on marketing quotas

11 No producer is entitled to be allotted a marketing quota in any marketing cycle that would be in excess of the market allotment allotted to such producer, less any quantity of chicken broilers marketed by such producer in interprovincial or export trade in any marketing cycle.

Determination of production quotas

12 The production quota of a registered producer for each marketing cycle for each category of chicken broiler for which that producer has been allotted a market allotment shall be equal to the number of chicken broiler determined

(a) for Cornish game hen, by dividing the market allotment allotted to the producer for Cornish game hen for that marketing cycle by 1.15 and multiplying the resultant figure by 1.07;

(b) for Regular chicken broiler, by dividing the market allotment allotted the producer for Regular chicken broiler for that marketing cycle by 1.75 and multiplying the resultant figure by 1.07; and

(c) for Roaster, by dividing the market allotment allotted to the producer for Roaster for that marketing cycle by 3.25. and multiplying the resultant figure by 1.07.

PART III
TEMPORARY MARKET ALLOTMENT PERMITS

Application for permit

13 A registered producer may apply to the Board for a Temporary Market Allotment Permit.

Circumstances and terms of issue

14 If the Board is of the opinion that

- (a) any Shortfall referred to in clause 9(c) is temporary in nature;
- (b) special marketing circumstances exist whereby a particular type of chicken broiler is required by the market; or
- (c) chicken broiler is required at any particular time of the year and cannot be fulfilled in the manner set out in section 9;

the Board may issue Temporary Market Allotment Permits to registered producers in an amount not to exceed in aggregate such anticipated Shortfall or requirement, in order to ensure that such market is filled by Manitoba producers.

Cap on permit

15 No producer will be allotted a Temporary Market Allotment Permit under section 14 with respect to a category of chicken broiler which exceeds in aggregate 25% of the market allotment for that category of chicken broiler allotted to such producer by the board.

M.R. 11/2011

Permit for special catch up

16 The Board may also issue Temporary Market Allotment Permits to registered producers as a result of undermarketings by such registered producers, as provided in section 25.

Permits for special circumstances

17 The Board may also issue Temporary Market Allotment Permits to registered producers in order to capitalize on special marketing circumstances which may be available to Manitoba producers.

Permit marketings not to be included

18 Chicken broiler marketed pursuant to a Temporary Market Allotment Permit will not be counted as part of a producer's marketing in any marketing cycle for the purpose of this Order.

Temporary production permits

18.1 The board will, in connection with any Temporary Market Allotment Permit issued by it, issue a Temporary Production Permit to the permit holder indicating the maximum number of chicken broilers of a category that the producer has been authorized to produce in connection with the Temporary Market Allotment Permit.

M.R. 11/2011

Permits for research

19 The board may issue a Temporary Production Permit and a Temporary Market Allotment Permit to a non-registered person to permit the production and marketing of chicken broiler for teaching or research purposes provided that

(a) the board is satisfied that such chicken broiler will be raised and marketed under conditions satisfactory to the board; and

(b) satisfactory arrangements have been made with respect to the payment of any penalties in connection with any activities of the applicant which may be inconsistent with the terms and conditions established by the board in issuing a Temporary Production Permit and a Temporary Market Allotment Permit to the applicant.

M.R. 11/2011

PART IV
CATEGORY CONVERSION

Method of conversion

20 A registered producer may apply to the Board to have all or a portion of the basic allotment allotted to such producer changed from one category of chicken broiler to another category either on a temporary or on a permanent basis.

If such an application is approved, the basic allotment for the new category shall be calculated and allotted by dividing the basic allotment of the category being converted by the number of weeks in the minimum marketing cycle of such category, and multiplying the result by the number of weeks in the minimum marketing cycle of the new category, provided that

(a) if the category being converted is Cornish game hen and the new category is Regular chicken broiler, the new basic allotment shall be reduced by multiplying the second result by .8405;

(b) if the category being converted is Cornish game hen and the new category is Roaster, the new basic allotment shall be reduced by multiplying the second result by .8088;

(c) if the category being converted is Regular chicken broiler and the new category is Roaster, the new basic allotment shall be reduced by multiplying the second result by .9625;

(d) if the category being converted is Regular chicken broiler and the new category is Cornish game hen, the new basic allotment shall be increased by multiplying the second result by 1.1901;

(e) if the category being converted is Roaster and the new category is Cornish game hen, the new basic allotment shall be increased by multiplying the second result by 1.2364; and

(f) if the category being converted is Roaster and the new category is Regular chicken broiler, the new basic allotment shall be increased by multiplying the second result by 1.0390.

PART V
EXCESS MARKETINGS AND UNDERMARKETINGS

Reduction of market allotment for excess marketings

21 Where a registered producer has marketed chicken broiler of a category during a marketing cycle in excess of the market allotment for that category allotted to that producer for that marketing cycle, the market allotment allotted to that producer for that category shall be reduced by a quantity of chicken broiler equal to such excess in a subsequent marketing cycle specified by the Board.

Mitigation from reduction

22 The Board may reduce the reduction or postpone the reduction or exempt a producer from the reduction referred to in section 21 in the event the producer has paid all levies imposed on such producer with respect to such marketings pursuant to the *Chicken Broiler Penalty Levies Regulation* in the manner specified in that regulation, or in the event the Board has waived the application of all or a portion of the levy imposed on such producer pursuant to that regulation.

Reduction of basic allotment for undermarketings

23 Where a producer fails to market a total quantity of any category of chicken broiler equal to the market allotment allotted to such producer for that category for five (5) consecutive marketing cycles, the basic allotment allotted to such producer for that category shall be reduced to the greatest number of the actual kilograms of chicken broiler of that category marketed by such producer in any of those marketing cycles.

Automatic catch up

24 Where a producer markets less than the market allotment allotted to such producer during a marketing cycle, such producer's market allotment for the subsequent marketing cycle shall be temporarily increased by an amount equal to such undermarketings, up to a maximum of 5% of the subsequent preliminary allotment prior to such adjustment.

Application for special catch up

25 Where a producer's market allotment is temporarily increased as a result of the application of section 24, and such temporary increase is less than the amount of the undermarketings of the producer in the marketing cycle during which such producer undermarketed, the producer may apply to the Board for a Temporary Market Allotment Permit in an amount equal to such difference. In the event such an application is granted by the Board in whole or in part, the Board will indicate the period or periods for which such Temporary Market Allotment Permit is effective, and the amount of such Temporary Market Allotment Permit for such period or periods.

Force majeure and stand downs

26 The Board may exempt from the provisions of sections 23 or 24 any producer who

(a) can satisfy the Board that such producer placed a sufficient number of appropriate chicks that ought to have enabled such producer to market the full market allotment of chicken broiler of that category allotted to such producer;

(b) can satisfy the Board within a reasonable period of time after the end of any marketing cycle that such producer was unable to market the full market allotment of chicken broiler of that category allotted to such producer because such producer's facility was damaged due to fire or other causes beyond such producer's control, or because such producer's chicken broilers were subject to disease (as verified by a qualified veterinarian) or because major repairs and/or renovations to such producer's facility resulted in the temporary curtailment of production (provided an application has been received at least 9 weeks in advance of the commencement of such major repairs and/or renovations being relied upon), or because of suffocation of such producer's chicken broilers (verified by a veterinarian certificate), or because of a lack of replacement chicks, or because of the serious illness or death of the producer; or

(c) has otherwise obtained permission from the Board in writing to reduce such producer's marketings for a period of time, subject to such terms and conditions as the Board may establish at the time such permission is granted.

PART VI
OTHER REDUCTION OR CANCELLATION OF
QUOTAS AND ALLOTMENTS

Cancellation of quotas and allotments on death, winding up, etc.

27 The Board may cancel the quotas and allotments allotted to a registered producer in the event of the death of the registered producer, the winding up or dissolution of the registered producer that is a corporation, or the dissolution of the registered producer that is a partnership.

Cancellation of quotas and allotments on cancellation of registration

28 The quotas and allotments allotted to a person shall be automatically cancelled in the event such person ceases to be a registered producer.

Other reduction or cancellation of quota and allotment

29 The Board may suspend, reduce or cancel, either on a temporary basis or on a permanent basis, the quota and an allotment

(a) as set out in this Order;

(b) where a producer has failed to comply with any Regulation, Order, or directive of the Board;

- (c) where a producer becomes insolvent or bankrupt or applies for a receiving order or has such an order made against it or takes the benefit from any Act for the time being in force for the relief of insolvent debtors, or if a receiver is appointed with respect to the facilities used by a producer;
- (d) where a producer has entered into a contract or agreement that would
 - (i) deprive such producer of that producer's right to the proceeds from the marketing of chicken broilers raised by that producer,
 - (ii) deprive such producer of that producer's right to a payment or an entitlement to a payment or an anticipated payment from the Retirement and Basic Allotment Reallocation System to another person without the prior written consent of the Board,
 - (iii) require such producer to purchase a product or a service in connection with the marketing of chicken broilers produced by that producer, or
 - (iv) obligate such producer with respect to the marketing of chicken broilers produced by that producer in connection with the acquisition of a product or a service by that producer;
- (e) where the Board has determined that a producer has failed to comply with the On-Farm Food Safety Assurance Program; or
- (f) if the Board has reasonable grounds for believing that such action is in the interests of Manitoba producers, consumers, or the chicken broiler industry.

PART VII OWNERSHIP OF QUOTAS

PART XII
REALLOTMENT OF QUOTA AND ALLOTMENT

Complete farm sales

56 In the event a registered producer sells the land, buildings, and equipment used by such producer in producing chicken broilers, the Board may reallocate the quotas and allotments used in association with such facility to any purchaser provided it is satisfied that no value has been attributed to such quotas and allotments and that no more than fair market value has been paid for such facility.

In applying this provision the Board may require an appraisal of the facility by a qualified appraiser to ascertain the fair market value of the facility using an appraisal method or methods approved by the Manitoba Council, such costs to be borne by the applicant(s).

The applicants will each be required to provide a Statutory Declaration in a form acceptable to the Board confirming the sale and purchase consideration (both direct and indirect). All agreements between the registered producer and the purchaser (including a detailed listing of all assets included in such sale) shall be appended to such Statutory Declaration.

(d) for the reallocation of the quotas and allotments allotted to the registered producer pursuant to Part XII; or

(e) to relocate the facilities of the registered producer under section 71;

for a minimum of five years following such reallocation unless such party has first received the approval of the Manitoba Council to such application.

In the event that the Board has reasonable grounds for believing that any information provided in a Statutory Declaration or any requested Certificate is false or misleading, the Board may reduce or cancel the quotas and allotments in question, whether or not such quotas and allotments were reallocated.

M.R. 110/2007

(b) the condition of such building and any such equipment included in such sale is such that same is capable of being used for a minimum period of five years after relocation and installation on the new foundation;

(c) no more than fair market value has been paid for such building and equipment; and

In applying this provision the Board may require an appraisal of the building and equipment by a qualified appraiser to ascertain the fair market value of the building and such equipment using an appraisal method or methods approved by the Manitoba Council, such costs to be borne by the applicant(s). In ascertaining whether no more than fair market value has been paid for the building and such equipment, the costs of removing such building and equipment and relocating same on a new foundation on property owned by the purchaser shall be borne by the purchaser and shall be deducted from the appraised value of such building and equipment.

The applicants will each be required to provide a Statutory Declaration in a form acceptable to the Board confirming the sale and purchase consideration (both direct and indirect) and any of the matters set out above. All agreements between the registered producer and the purchaser (including a detailed listing of all assets included in such sale) shall be appended to such Statutory Declaration.

The purchaser will be required to give to the Board a written undertaking, in a form satisfactory to the Board, verifying that the purchaser will use such building and equipment in connection with the reallocated quotas and allotments for a minimum of five years after relocation and installation of such building and equipment on such new foundation.

for a minimum of five years following such reallocation unless such party has first received the approval of the Manitoba Council to such application.

In the event that the Board has reasonable grounds for believing that any information provided in a Statutory Declaration or any requested Certificate is false or misleading, the Board may reduce or cancel the quotas and allotments in question, whether or not such quotas and allotments were reallocated.

M.R. 110/2007

Lease of complete farm

58 In the event a registered producer leases or licenses the land, buildings, and equipment used by such producer in producing chicken broilers, for a term not to exceed two (2) years in length, the Board may temporarily reallocate the quotas and allotments used in association with such land, buildings, and equipment to any lessee or licensee for the term of the lease or license provided it is satisfied that no value has been attributed to such quotas and allotments and that no more than fair market rental for such facility is being paid under the lease or license arrangement directly or indirectly for the lease of such facility, or any other assets included in such lease (including any transaction with respect to chicken broilers).

In applying this provision the Board may require an appraisal of the facility to ascertain the fair market rental of the facility using an appraisal method or methods approved by the Manitoba Council, such cost to be borne by the applicant(s).

The applicants will each be required to provide a Statutory Declaration in a form acceptable to the Board confirming the rental consideration (both direct and indirect). 62 Where an individual who is a registered producer incorporates a corporation controlled by such individual and/or members of such individual's immediate family, or where the partners who are registered producers incorporate a corporation owned by themselves in the same proportion as they owned interests in the partnership, or where a registered producer which is a corporation incorporates a wholly owned subsidiary, the Board may, on written request of such registered producer, reallot the quotas and allotments allotted to such registered producer to such corporation or subsidiary

For the purpose of this provision a daughter-Hutterite Colony shall mean a Hutterite Colony recently created as a result of the division of the assets and the membership of a Hutterite Colony;

provided that no such reallocation will be made until

- (i) the recipient has established a separate facility owned and operated by the recipient in or on which to produce chicken broilers,
- (ii) the Board is satisfied that the new operation of the recipient and the resulting operation of the applicant will both be economically viable, and
- (iii) the Board is satisfied that no value has been attributed to such quotas or allotments.

The applicants will each be required to provide a Statutory Declaration in a form acceptable to the Board setting out the information specified therein and in the event that the Board has reasonable grounds for believing that any information provided in a Statutory Declaration or an Application is false or misleading, the Board may cancel or reduce the quotas or allotments in question, whether or not such quotas or allotments were reallocated.

Retirement and basic allotment reallocation system administration

4 The Retirement and Basic Allotment Reallocation System shall be operated by the Designated Staff. The Designated Staff shall be responsible for receiving and processing Offers, establishing the date of each Reallocation Day, publishing such dates, receiving and processing Bids, operating each Retirement and Basic Allotment Reallocation Program and reporting such results to the Board.

The Manitoba Council may appoint members of its Staff to act as observers and auditors of each Retirement and Basic Allotment Reallocation Program.

Except as provided in subsection 7(11) and section 13, all particulars with respect to an individual Offer or to an individual Bid shall be kept confidential by the Designated Staff and Manitoba Council observers and auditors, and shall not be disclosed to the Members of the Board, Board staff who are not Designated Staff, or any other person whatsoever.

The Board may prescribe forms to be used in the operation of a Retirement and Basic Allotment Reallocation Program from time to time. The Designated Staff may accept a Bid or an Offer, or an amendment or a withdrawal of a Bid or an Offer which is not in a prescribed form, as long as same is in writing and in the opinion of the Designated Staff substantially complies with any such prescribed form.

Each retirement payment paid to a successful offeror will be paid on each quota unit cancelled.

Retirement and basic allotment reallocation program procedures

7(1) Designated Staff may operate a Retirement and Basic Allotment Reallocation Program for each category on or before the sixth regular business day of the month following the month in which notification is given by the Board to registered producers of such Program.

7(2) Designated Staff may cancel, or may postpone, for up to seven days at any time, the operation of any Retirement and Basic Allotment Reallocation Program for a category for any reason they deem advisable.

7(3) A person wishing to submit an Offer must do so in writing, either by letter or telefax, in a form satisfactory to the Designated Staff, to the Board's head office.

7(4) Each Offer on a particular Retirement and Basic Allotment Reallocation Program must include any necessary application fee established by the Board for processing an Offer, together with the following information:

- (a) the number of quota units offered for cancellation;
- (b) the category of the quota units offered;
- (c) the minimum retirement payment to the nearest cent per quota unit which the offeror is willing to accept upon cancellation of the quota units offered for cancellation;
- (d) the name, address and signature of the offeror;
- (e) the Producer Registration Number of the offeror.

The Designated Staff may require an offeror to provide proof of the consent of any secured creditor of the offeror to the submission of such Offer.

7(5) Upon receipt of an Offer in an acceptable form, the Designated Staff shall determine the Reallocation Day for the operation of a Retirement and Basic Allotment Reallocation Program to deal with the Offer, and shall cause a notice to be mailed to each registered producer indicating the fact that an Offer has been received; the number of quota units offered for cancellation; the minimum retirement payment which the offeror is willing to accept upon cancellation of the quota units offered for cancellation; and the Reallocation Day. Provided the number of quota units offered for cancellation are at least 30,000 quota units, such notice shall also be mailed to each person on the Notification List.

7(6) A person wishing to submit a Bid on a Retirement and Basic Allotment Reallocation Program must do so in writing, either by letter or by telefax, in a form satisfactory to the Designated Staff, to the Board's head office, which must be received prior to 4:00 p.m. of the last working day before the month in which the Retirement and Basic Allotment Reallocation Program is to be held.

Each Bid on a particular Retirement and Basic Allotment Reallocation Program must include the following information:

- (a) the number of quota units requested for allotment;
- (b) the category of the quota units requested;
- (c) the administration fee, to the nearest cent per quota unit, which the bidder is willing to pay upon allotment of the quota units requested for allotment;
- (d) the name, address and signature of the bidder;
- (e) the Producer Registration Number of the bidder, where applicable.

Only one quantity of quota units may be specified in any Bid.

A registered producer may indicate on a Bid, in a form satisfactory to the Designated Staff, that, if the Bid is successful, a portion of the quota units requested are to be allocated to one or more other registered producers provided that the provisions of section 8 are met by each such registered producer.

In order for a Bid to be eligible to be processed on a Program, the bidder must submit a separate bank draft or credit union primary order payable to the Board (or other method of payment or security for payment acceptable to the Designated Staff) representing the full amount of the administration fee such bidder proposes to pay in connection with that Bid which must be received at the Board's head office no later than 4:00 p.m. of the last working day before the month in which the Retirement and Basic Allotment Reallocation Program is to be held.

7(7) In the case of an omission or defect in a Bid or in an Offer the Designated Staff may not make changes or additions to such Bid or Offer, and the Bid or Offer will be rejected. A member of the Designated Staff shall attempt to contact the bidder or offeror and to advise him/her of such rejection. The fact that a Bid or an Offer is rejected shall not preclude the bidder or offeror from submitting a subsequent Bid or Offer.

7(8) A Bid may be amended or withdrawn, provided such withdrawal or amendment is in writing and in the form of a letter or a telegram or a telefax satisfactory to the Designated Staff, sent by the bidder, and is received at the head office of the Board prior to 4:00 p.m. of the last working day before the month in which the Retirement and Basic Allotment Reallocation Program is to be held. Such withdrawal or amendment must be clear and unambiguous and must identify the bidder by name and by Producer Registration Number, where applicable, and must specify the Bid that is to be withdrawn or amended.

Any Bid which is received after any deadline for submission for that Program will be rejected by the Designated Staff.

7(9) As provided in section 67 of this Order, the Designated Staff may refuse to accept or may postpone processing of any Bid or any Offer. Any decision to postpone the processing of a Bid or an Offer, or to reject a Bid or Offer made by the Designated Staff shall be final. The Designated Staff may also establish terms and conditions before a Bid or an Offer will be processed in the future. Any person who is not satisfied with the terms and conditions established by the Designated Staff before a Bid or Offer will be processed in the future may appeal such decision in writing to the Board.

7(10) On each Reallocation Day, the Designated Staff shall qualify all valid Bids for the quota units offered for cancellation where the administration fee set out in a Bid is at least equal to the minimum retirement payment set out in the Offer. In the event only one such qualified Bid is received for the quota units offered for cancellation, that Bid will be deemed to be the successful Bid. In the event more than one such qualified Bid is received for the quota units offered for cancellation, the Bid offering the highest administration fee per quota unit will be deemed to be the successful Bid. In the event two or more such qualified Bids offering the highest administration fee per quota unit are identical, the Designated Staff shall conduct a lottery among such identical Bids to determine the successful Bid.

In the event the successful Bid offering the highest administration fee per quota unit is less than the number of quota units offered, the qualified Bid offering the next highest administration fee per quota unit where the administration fee is at least equal to the minimum retirement payment set out in the Offer will be deemed to be the next successful Bid with respect to all or a portion of the balance of the quota units offered for cancellation.

To the extent that the aggregate of the quota units comprising the qualified Bids deemed to be successful aggregate less than the number of quota units offered for cancellation, the qualified Bid offering the next highest administration fee per quota unit where the administration fee is at least equal to the minimum retirement payment set out in the Offer will be deemed to be the next successful Bid with respect to all or a portion of the balance of the quota units offered for cancellation, and such process shall be repeated until the successful Bids aggregate the number of quota units offered for cancellation. As a result of this process, in the event two or more such qualified Bids offering the highest administration fee per quota unit are identical, and the number of remaining quota units offered for cancellation are less than the aggregate of such Bids, the Designated Staff shall distribute the quota units rateably among such identical Bids.

In the event, as a result of the above procedure, the successful Bids still aggregate less than the number of quota units offered for cancellation the Designated Staff shall then qualify all valid Bids for the quota units offered for cancellation where the administration fee set out in the Bid is less than the minimum retirement payment set out in the Offer. The qualified Bid in this second grouping offering the next highest administration fee per quota unit will be deemed to be the next successful Bid with respect to all or a portion of the balance of the quota units offered for cancellation and such process shall be repeated until such successful Bids aggregate the number of quota units offered for cancellation. As a result of this process, in the event two or more such qualified Bids from this grouping are identical, and the number of remaining quota units offered for cancellation are less than the aggregate of such Bids, the Designated Staff shall distribute the quota units rateably among such identical Bids. In the event, as a result of this second procedure the aggregate administration fees which would be payable upon allotment of the quota units requested for allotment is less than the aggregate minimum retirement payment requested with respect to the quota units offered for cancellation, the Program shall be cancelled and the Offer and all Bids shall be deemed to be unsuccessful.

7(11) Following the operation of a Retirement and Basic Allotment Reallocation Program, the Designated Staff shall report to the Board particulars of the Offer, the number of Bids received, the number of quota units in each Bid, the administration fee offered with each Bid, and any particulars of the successful Bid(s). The Board will review such report and if satisfied, in its sole discretion, that there have been no irregularities or deficiencies in the operation of that Retirement and Basic Allotment Reallocation Program, the Board may pass a resolution to accept such results.

Following the acceptance of the results of a Retirement and Basic Allotment Reallocation Program, the Board will pass a resolution to allot quota units to the successful bidder(s) and to cancel quota units of the successful offeror in order to implement such results and will determine the effective date or the process for determining the effective date to apply to such allotment(s) and to such cancellation(s).

In the event a successful bidder indicated on the Bid that a portion of the quota units are to be allotted to another registered producer or producers, the Board will allocate the quota units in accordance with such indication.

The allotment of quota units to a successful bidder who is a registered producer will be effective as of the first day of the marketing cycle of that bidder which occurs after the effective date established by the Board for such allotment.

The allotment of quota units to a successful bidder who is an eligible person will be effective upon a date satisfactory to the Board and the eligible person for the commencement of the eligible person's first marketing cycle.

The cancellation of quota units allotted to a successful offeror will be effective as of the last day of the marketing cycle of that offeror which occurs after the effective date established by the Board for such cancellation.

7(12) Following the Board's consideration of the results of a Retirement and Basic Allotment Reallocation Program, each participant in the Retirement and Basic Allotment Reallocation Program will be advised in writing by the Designated Staff whether such participant's Offer or Bid was successful, and if the Bid or Offer was successful, the effective date of the allotment or cancellation.

7(13) All funds submitted by unsuccessful bidders and all excess administration fees submitted by successful bidders as proposed administration fees will be returned to such bidder.

Limits on bids and offers

8 An Offer which would result in the remaining basic allotment allocated to that offeror being reduced to a level below 30,000 kilograms of chicken broiler for that category will be rejected by the Designated Staff. Any offeror allotted a basic allotment of 30,000 kilograms of chicken broiler of a category or less must offer to cancel all such quota units of that category to be eligible to be an offeror on the Retirement and Basic Allotment Reallocation Program.

No Offer of less than 1,000 quota units will be processed.

A successful bidder will not subsequently be eligible to receive a retirement allowance in connection with the cancellation of the equivalent number of quota units under the System if all quota units allotted to such producer are cancelled within five years of such successful Bid. In the event such person subsequently submits an Offer of all quota units allotted to such person during such five year period, an equivalent number of quota units shall be debited against the number of quota units offered, so that the offeror will only be entitled to receive a retirement payment with respect to the balance of such quota units, and the quota units so debited shall be credited to the Transfer Assessment Pool.

A person who has been allocated an increase in basic allotment under subclause 9(c)(i) of this Order shall not be entitled to submit an Offer which would result in the basic allotment allotted to such person being reduced below the level established prior to such allotment for a minimum of five years following the effective date of such allotment.

No Bid shall be processed if the number of quota units comprising the Bid, when aggregated with the quota units allocated to such bidder, would exceed maximum allotment.

No Bid by an eligible person of less than 30,000 quota units of a category will be processed.

Retirement fund

9(1) All administration fees paid to the Board by successful bidders will be allocated to the Retirement Fund.

9(2) All retirement payments made by the Board to successful offerors will be paid from the Retirement Fund.

Limitation re new producers

10 In the event a person is allotted a basic allotment (the "initial allotment") and becomes a registered producer pursuant to an application to the Board under section 6 of this Order, such person shall not be entitled to submit an Offer which would result in the basic allotment allotted to that person being reduced below the initial allotment for a minimum of five years from the date of such initial allotment.

Additional transfer assessment

11 In the event the basic allotment allotted to a producer under Box 2 of the Basic Allotment List is greater than the basic allotment allotted to such producer under Box 1 of such List (such difference being referred to as the "difference"), any successful Offer submitted by that the registered producer shall be reduced by an amount equal to such difference for a period of five years from the effective date of the allotment of the difference.

Notification lists

12 Any person who is not a registered producer and who wishes to participate in a Retirement and Basic Allotment Reallocation Program as a bidder may request in writing, in such form as the Board may prescribe for such purposes, that such person's name be added to the Notification List.

Any person added to the Notification List shall be deleted from that List one year after being added to such List. A person on such List may request, in such form as the Board may prescribe for such purposes, that such person's name be included on such list for a further one year period, provided such application is made not earlier than one month prior to the date upon which such person's name would otherwise be deleted from such List.

Information

13 The Board will forward to each registered producer, in a form approved by the Manitoba Council, within 15 days following Board approval, the results of the Retirement and Basic Allotment Reallocation Program.
