PART II

QUOTA ALLOTMENT

Criteria for allotment of quota
2 Each applicant for the allotment of a quota must be the registered owner or the sole operator of land and equipment on which all potatoes harvested by such person are grown.

Application for quota and increases in quota
3(1) Any registered producer wishing to engage in the marketing of table potatoes or in the marketing of seed potatoes shall make application to the Board for the allotment of a quota for each category and type of potatoes such producer wishes to grow or harvest. Every application shall be in writing in a form prescribed by the Board and must be signed by the applicant and forwarded to the head office of the Board.

M.R. 130/95

3(2) Any registered producer wishing an increase in an annual table quota for a type of table potato or an increase in an annual seed quota shall make application to this Board for such an increase. Each application shall be in writing and shall be in a form prescribed by this Board and must be signed by the applicant and forwarded to the head office of this Board between December 1 and December 31st in each year. Subject to the applicant meeting any criteria established by this Board, the applicant's name shall be placed on the appropriate waiting list of this Board for an increase in such quota for the following crop year. Once quotas have been established for that category or type of potato for that crop year, such waiting list shall be cancelled.

M.R. 130/95

Waiting list for allocation of quota
4 Any individual wishing to engage in the marketing of potatoes shall make application to the Board for the allotment of an annual marketing quota. Each application shall be in writing in a form prescribed by the Board and must be signed by the applicant and forwarded to the head office of this Board. Subject to the applicant meeting any criteria established by the Board, the applicant's name shall be placed on a waiting list of the Board for the allocation of an annual marketing quota.

Any waiting list shall be effective for the period beginning January 1st of one year and terminating February 28th of that year (the "Allocation Period"). Applications to be placed on a waiting list will be accepted between December 1st and December 31st in the preceding year (the "Application Period"). Following December 31st of each year the Board will conduct a draw from the applications received during the Application Period to determine the order in which such applications will be placed on the waiting list for the Allocation Period. At the end of each Allocation Period the waiting list shall be cancelled and a new waiting list shall be established.

M.R. 85/95
PART III
TABLE POTATOES

**Determination of annual table quotas**

5 Subject to the provisions of the Plan, the Regulations and this Order, the annual table quota for each type of table potato allotted to a registered table potato producer shall be equal to the annual table quota for that type of table potato allotted to such producer in the preceding crop year.

**Notice of annual table quotas**

6 The Board will advise each registered table potato producer of the annual table quota(s) allotted to that producer on or about March 1st in each year and will advise that producer of any changes in such quotas from time to time.

M.R. 85/95

**Changes in annual table quota between types**

7 The Board may, upon application of a registered table potato producer, allot to that producer a new or increased annual table quota for one type of table potato, and may reduce the annual table quota allotted to that producer for a different type of table potato by an equal amount.

**New and increased annual table quotas**

8 Prior to March 1st in each calendar year, this Board will analyze the potential production for each type of table potato by registered table potato producers and the potential markets available for Manitoba produced table potatoes of each type. If after allowing for possible yield variations, the Board expects that the aggregate potential production in Manitoba for any type of table potato will not meet potential markets available for such type of table potato (herein called the "Shortfall"), the Board may allot additional annual marketing quotas for that type of table potato equal to the Shortfall on the following priority:

(a) by increasing the annual table quota for that type of table potato allotted to registered producers who have been allotted annual table quotas aggregating less than 6,000 - 75 pound bags of all types of table potatoes and who have applied in writing for an increase in their annual table quota of that type during the application period commencing December 1st and terminating December 31st of the previous calendar year, to bring the annual table quotas allotted to each such registered producer up to a level in aggregate of no more than 6,000 - 75 pound bags of table potatoes;

(b) by allotting up to 40% of the balance of the Shortfall to applicants who have not previously been allotted an annual table quota and who have applied for registration and an annual table quota. Such annual table quotas will be allotted to applicants who have met all of the criteria of the Board in the order of priority determined in accordance with section 4. No person shall be entitled to be allotted an annual table quota in excess of 6,000 - 75 pound bags of table potatoes under this provision; and
(c) by allotting the balance of the Shortfall equally among each registered table potato producer who marketed table potatoes of that type in the previous crop year and who applied in writing for increases in the annual table quota allotted to such producer of that type during the application period commencing December 1st and terminating December 31st of the previous calendar year. No table potato producer shall be entitled to an increase in the annual table quota allotted to such producer under this provision unless such producer marketed table potatoes in the preceding crop year equal to at least 85% of the aggregate annual table quotas allotted to such producer for such crop year (catastrophes excepted).

Annual table quota not to exceed maximum quota

Notwithstanding anything set out in section 8, the aggregate annual table quotas allotted to a registered table potato producer shall not exceed maximum quota, provided that if a registered producer

(a) has, prior to the calendar year 1982, been effectively allotted annual table quotas aggregating in excess of maximum quota; or

(b) has, as permitted pursuant to section 47 of this Order, been effectively reallocated annual table quotas aggregating in excess of maximum quota, or has been permitted to acquire an interest in a substantial holder in an entity that has been effectively allotted annual table quotas aggregating in excess of maximum quota; this limitation shall not apply to such registered producer.

Delivery periods

This Board shall from time to time establish the method by which the termination date for delivery periods will be fixed for each type of table potato. If a delivery period for a type of table potato does not coincide with the pool period for that type of table potato, the Board will attempt to ensure that each eligible registered table potato producer has an opportunity to deliver a proportionate share of that producer’s delivery quota of that type in each pool period.

Delivery quotas

Delivery quotas for each type of table potato will be allotted to registered table potato producers based on the following scale:

(a) registered table potato producers who have been allotted annual table quotas aggregating 3,000 - 75 pound bags of table potatoes or less shall be allotted a delivery quota for each type of table potato for each delivery period equal to 1/5 of the annual table quota of that type allotted to that producer; and

(b) registered producers who have been allotted annual table quotas aggregating more than 3,000 - 75 pound bags of table potatoes shall be allotted a delivery quota for each type of table potato for each delivery period of 200 - 75 pound bags plus 1/8 of the first 10,000 - 75 pound bags of the annual table quota for that type allotted to that producer, plus 1/11 of the balance of the annual table quota for that type allotted to that producer.
Notice prior to delivery
12 In each crop year each registered table potato producer must give the Board at least 48 hours notice of that producer's desire to be placed on the delivery order list for a type of table potato and to commence deliveries for that type of table potato in that crop year. Satisfactory evidence of adequate size and maturity of that type of table potato must be provided to the Board by the producer at the time of such notification.

Delivery order required
13 Each registered table potato producer must obtain a delivery order or delivery order number from the Board office before delivering table potatoes to the Board.

Deletion from delivery order list
14 A registered table potato producer will be removed from the current delivery order list for a type of table potato if that producer refuses or fails to fill a delivery order within a reasonable period of time after receiving 24 hours notice from the Board to deliver such type to the Board. No day in which the Board's plant is closed for business shall be included in determining the 24 hour period.

Discontinuing deliveries re inferior quality
15 A registered table potato producer whose table potatoes, in the Board's opinion, do not meet market requirements due to breakdown or inferior quality will be required to discontinue deliveries and will be removed from the delivery order list until such time as that producer can satisfy this Board that such producer has potatoes of an acceptable quality. It is the responsibility of each producer to follow proper procedure and to exercise precautions to ensure that such producer's table potatoes meet market requirements. In cases where the Board has withheld issuing delivery quotas to a producer because of quality problems the Board may, by resolution, permit the resulting loss of delivery quota to be recovered in future delivery periods.

Resumption of accepting delivery orders
16 In the event that a registered table potato producer is removed from a delivery order list for any reason, such producer will not be placed on that delivery order list until such producer has given the Board at least 48 hours advance notice of again wishing to commence deliveries and has provided the Board with satisfactory evidence that such producer is in a position to fill such delivery orders. The onus of giving notice to this Board of such desire to resume such deliveries shall be upon the producer.

Adjustment of delivery quotas for market place
17 In the event that changes in market requirements (such as maturity and size demand) occur within a delivery period for a type of table potato, delivery quotas will be so adjusted as to allow each producer on the delivery order list for that type of table potato the opportunity to market potatoes of both old and new market requirements up to the share of the delivery quota of that producer up to that point.

Pro-rating of table deliveries
18 A registered table potato producer wishing to start deliveries part way through any delivery period will be given that portion of delivery quota of such producer equal to the percentage of delivery quota registered table potato producers generally have left to be delivered during that delivery period.
Stand down of table deliveries

After November 1st in a crop year a registered table potato producer may elect to cease deliveries and temporarily stand down for a term not exceeding one month. With the prior approval of the Board, and subject to timing approved by the Board, a producer may be permitted to recover the delivery quota thus stood down over the next 2 delivery periods provided such producer has given this Board at least 2 weeks prior notice in writing of such intention.

Non-quota delivery period and open delivery period

Where, in the opinion of the Board, market demand makes it desirable to do so, a non-quota delivery period or open delivery period may be commenced by the Board for a specific grade, quality, class, category or type of table potato, without necessarily extending such period to other grades, qualities, classes, or types of table potato.

Termination of non-quota or open delivery period

Before terminating a non-quota delivery period or an open delivery period, the Board will endeavour to give at least one full business day's notice of such termination to registered table potato producers who are able, and have been called upon to supply market demand during such non-quota delivery period or open delivery period. During such notice period no such producer shall be entitled to deliver more than the average amount of table potatoes of that type which such producer delivered each day such producer delivered that type of table potatoes to the Board during such non-quota delivery period or open delivery period.

Surplus to quota deliveries

Once all registered table potato producers have been given an opportunity to deliver a quantity of potatoes of a type equal to the aggregate annual marketing quotas allotted to them for that type, the Board may declare a non-quota delivery period for that type of table potato. During such non-quota delivery period the Board may give marketing priority to each such registered table potato producer of up to 5,000 - 75 pound bags or 10% of the annual table quota of that producer for that type, whichever shall be greater.

PART IV

SEED POTATOES

Determination of annual seed quotas

Subject to the provisions of the Plan, the Regulations and this Order the annual seed quota allotted to a registered seed potato producer shall be equal to an annual seed quota allotted to such producer in the preceding crop year.

Notice of annual seed quotas

The Board will advise each registered seed potato producer of that producer's annual seed quota on or about March 1st in each year and will advise such producer of any changes in such quotas from time to time.

M.R. 130/95
Delivery order required
25 Each registered seed potato producer must obtain a delivery order or
delivery order number from the Board office before delivering seed potatoes.

Sharing of non-specified orders
26 The Board may place non-specified orders for seed potatoes with
registered seed potato producers in proportion to the annual seed quota allotted to
such registered seed potato producers or on such other basis as the Board may deem
appropriate.

Marketing seed on table market
27 In the event a registered seed potato producer has been unable to market
seed potatoes produced by such producer after April 30th in any crop year, and
provided that such seed potatoes are an acceptable quality for the table market, the
Board may permit such producer to sell a volume of potatoes equal to unmarketed
portion of such producer's annual seed quota on the table market as if such producer
had been allotted annual table quota.

Other marketings of seed potatoes as table potatoes
28 In the event a registered seed potato producer's seed potatoes are rejected
or partially rejected for certification by the Plant Quarantine Division, Agriculture
Canada, such producer may be permitted, upon application to this Board and
provided such potatoes are of an acceptable quality, to transfer annual seed quota
allotted to that producer to annual table quota for the then current crop year only in
the proportion that the rejected seed potatoes are to annual seed quota of that annual
table quota of that producer. Sales made as a result of such transfer will be counted
as seed marketing for the purpose of section 31.

PART V

REDUCTION OR CANCELLATION OF
ANNUAL MARKETING QUOTAS

Force majeure and stand downs
29 This Board may waive application of any provision of this Part if prior
approval of this Board has been obtained to reduce or cease marketing regulated
product for a period of time, or if, in this Board's opinion, a producer's failure to
market or reduction in marketings was beyond the control of that producer and if
such producer advised this Board in writing, in a form prescribed by the Board for
such purpose, of the nature of such circumstances. In the event the circumstances
beyond the control of a producer were related to the production or harvesting of
regulated product, such notification must be filed with this Board prior to December
31st of the year in which such regulated product was grown. In the event the
circumstances arose following the harvest of such regulated product, such notification
must be filed with this Board prior to June 30th of the year following the year in
which such regulated product was harvested.

M.R. 13/95
Reduction of annual table quotas for undermarketing
30 When a registered table potato producer’s annual marketings of any type of table potato in a crop year are less than 85% of the annual table quota for that type allotted to that producer for that crop year, the annual table quota for that type allotted to that producer for the next crop year shall be reduced by 1/3 of the difference between the annual table quota of that type allotted to that producer for that crop year and the actual marketings of that type by that producer during that crop year.

M.R. 130/95

Reduction of annual seed quotas for undermarketing
31 When a registered seed potato producer’s annual marketings of seed potatoes in a crop year are less than 85% of annual seed quota allotted to that producer for that crop year, annual seed quota allotted to that producer for the next crop year shall be reduced by 1/3 of the difference between annual seed quota for that crop year allotted to that producer for that crop year and actual seed marketings of that producer during that crop year.

M.R. 130/95

Cancellation of annual table quotas
32 Where a registered table potato producer has not marketed table potatoes of a type to or through this Board for a period of 2 consecutive crop years, the annual table quota allotted to that producer for that type shall be automatically cancelled.

Cancellation of annual seed quotas
33 Where a registered seed potato producer has not marketed seed potatoes to or through the Board for a period of 2 consecutive crop years, annual seed quota allotted to that producer shall be automatically cancelled.

Other reduction or cancellation of annual marketing quotas
34 In the event a registered producer is allotted new or increased annual table quota or annual seed quota in a crop year, and, in the opinion of the Board, fails to produce sufficient potatoes of the category or type in that crop year to enable such producer to market an amount of that category or type of potato equal to the annual table quota allotted to that producer of that type, or equal to the annual seed quota allotted to that producer in that crop year, such new or increased portion of the annual table quota or annual seed quota allotted to that producer may be cancelled by the Board.

PART VI

OTHER REDUCTION OR CANCELLATION OF QUOTA

Cancellation of quotas on death, winding up, etc.
35 The Board may cancel a quota allotted to a registered producer in the event of the death of the registered producer, the winding up or dissolution of a registered producer that is a corporation, or the dissolution of a registered producer that is a partnership.
**Cancellation of quotas on cancellation of registration**

36 The quotas allotted to a person shall be automatically cancelled in the event that person ceases to be a registered producer.

**Other reduction or cancellation of quota**

37 The Board may suspend, reduce or cancel, either on a temporary basis or on a permanent basis, a quota

(a) as set out in this Order; or

(b) where a producer has failed to comply with any regulation, order, or directive of the Board; or

(c) where a producer becomes insolvent or bankrupt or applies for a receiving order or has such an order made against it or takes the benefit from any Act for the time being in force for the relief of insolvent debtors, or if a receiver is appointed with respect to the potatoes grown and harvested by, or the land or facilities used by a producer; or

(d) where a producer has entered into a contract or agreement that would

   (i) deprive such producer of such producer’s right to the proceeds from the marketing of potatoes grown and harvested by such producer, or

   (ii) require such producer to purchase a product or a service in connection with the marketing of potatoes grown or harvested by such producer, or

   (iii) obligate such producer with respect to the marketing of potatoes grown or harvested by such producer in connection with the acquisition of a product or a service by such producer; or

(e) if the Board has reasonable grounds for believing that such action is in the interests of Manitoba producers, consumers, or the potato industry.

**PART VII**

**OWNERSHIP OF QUOTAS**

**Quotas belong to board**

38 Annual marketing quotas belong to the Board.

**Quota non-transferable by producer**

39 No person shall

(a) transfer, assign, or sell a quota to another person; or

(b) offer to transfer, assign, or sell a quota to another person, or receive payment for a quota, or offer to buy a quota from a producer, or make a payment to a producer for a quota.
PART VIII

MARKETING PROHIBITIONS

No marketings without a quota

40 Unless otherwise directed by this Board, no person who grows or harvests potatoes shall market a potato of a category unless an annual marketing quota has been allotted to such person in respect of that category of potatoes.

No marketings unless quota is for a type

41 Unless otherwise directed by this Board, no person who grows or harvests potatoes shall market a table potato of a type unless an annual table quota has been allotted to such person in respect of that type of table potato.

No excess marketings of table potatoes

42 Unless otherwise directed by this Board, no registered table potato producer shall market a table potato of a type

(a) in a crop year in excess of the annual table quota allotted to such producer for that type for that crop year; or

(b) in a delivery period in excess of the delivery quota allotted to that producer for that type for that delivery period.

No excess marketings of seed potatoes

43 Unless otherwise directed by this Board, no registered seed potato producer shall market a seed potato in a crop year in excess of the annual seed quota allotted to such producer for that crop year.

PART IX

GENERAL

Unacceptable quality

44 Nothing in this Order requires the Board to include, in calculating the marketings of a producer, any potatoes which are not of an acceptable market quality.

Effect of sharing

45(1) Where two or more persons grow or harvest potatoes in partnership, or in circumstances where there is a sharing by them whether familial, communal, or otherwise, of the land, equipment, labour or services provided directly or indirectly by all or any of them, or pursuant to a contract jointly or severally with the same corporation, firm, or individual, for the purpose of this Order, the potatoes grown, harvested or marketed by one of those persons may be treated by the Board as having been grown, harvested or marketed by the other or others, and the land on which one of those persons grows or harvests potatoes may be treated by the Board as being the land on which the other or others grow or harvest potatoes.

M.R. 113/2008
45(2) Notwithstanding subsection (1), the following activities by registered producers will not in themselves result in the type of treatment set out in subsection (1):

(a) the ownership or use of equipment not normally utilized on a day-to-day basis in producing or marketing the regulated product;

(b) the ownership or use of a facility to clean, grade or store a regulated product;

(c) the investment in or ownership of handling or transportation equipment or businesses;

(d) the formation of a purchasing group by which a registered producer may acquire supplies or equipment for use in the production or marketing of regulated product.

M.R. 113/2008

Acquisitions of interests in excess of maximum quota prohibited

46 Notwithstanding anything contained in this Order, but subject to sections 47 and 48, the Board will take appropriate action to prevent any person from acquiring control of or acquiring a direct or indirect interest in quotas in excess of maximum quota.

Exception for grandfathered operations in excess of maximum quota

47 Notwithstanding section 46, the Board may:

(a) approve the re-allotment of a quota in excess of maximum quota to a person who does not have a direct or indirect interest in a quota at the time of such re-allotment; and

(b) suspend the provisions of section 51 if the proposed new beneficial or legal owner does not have a direct or indirect interest in a registered producer at the time of the transfer of beneficial or legal ownership to such proposed new beneficial or legal owner.

Exception for financial assistance to children

48 Notwithstanding section 46, the Board may approve the provision of financial assistance by a registered producer to one or more children of the registered producer, or of a shareholder of a registered producer, or of a partner of a registered producer, for the purpose of enabling such child or children to acquire land and facilities, and to become a registered producer. Any such approval will be subject to the applicants' satisfying the Board that

(a) the potato production business of the child or children will be completely separate from the potato production business of such registered producer (i.e. the businesses will be carried on on separate parcels of land; there will be no sharing on a day-to-day basis of facilities or labour; there will be no commingling of supplies; there will be no mutual ownership of any assets used in the businesses; there will be no sharing of profits or losses; the parties keep and maintain separate financial statements and file income tax returns as separate entities); and

(b) such financial assistance is unsecured, directly or indirectly, with respect to the land, facilities, crops and inventory owned by the child or children; and
(c) the potato production business to be carried on by the child or children of the registered producer will operate completely independent of the registered producer.

The applicants shall provide the Board with an Undertaking in a form acceptable to the Board with respect to the matters set out in clauses (a) to (c) above.

**Step-transactions prohibited**

Notwithstanding anything contained in this Order, the Board will take appropriate action to prevent a person from acquiring control of, or acquiring a direct or indirect interest in quotas through a process

(a) that involves more than one application to the Board; or

(b) that does not disclose to the Board, in conjunction with an application to the Board for any re-allotment of a quota, particulars of all contemplated or proposed future transactions which may involve

(i) a subsequent re-allotment of a quota, or

(ii) a future change in the legal or beneficial ownership of an entity, or

(iii) an application to transfer quota from one site to another site.

7(10) In the case of an omission or defect in a Bid or in an Offer the Designated Staff may not make changes or additions to such Bid or Offer, and the Bid or Offer will be rejected. A member of the Designated Staff shall attempt to contact the bidder or offeror and to advise such person of such rejection. The fact that a Bid or an Offer is rejected shall not preclude the bidder or offeror from submitting a subsequent Bid or Offer.

7(11) A Bid may be amended or withdrawn, provided such withdrawal or amendment is in writing and in the form of a letter satisfactory to the Designated Staff, sent by the bidder, and is received at the head office of the Board prior to 4:00 p.m. of the last working day before the month in which the proposed Retirement and Annual Table Potato Quota Reallocation Program is to be held. Such withdrawal or amendment must be clear and unambiguous and must identify the bidder by name and by Producer Registration Number, where applicable, and must specify the Bid that is to be withdrawn or amended.

Any Bid which is received after any deadline for submission for that Program will be rejected by the Designated Staff.

No Bid of a type will be accepted if the number of quota units offered for cancellation is less than 6,000 75-pound bags of table potatoes unless the bidder has already been allocated an annual table potato quota of that type.

No Bid will be processed if the number of quota units comprising the Bid, when aggregated with the quota units allocated to such bidder, would exceed maximum quota.
7(12) As provided in section 67.2 of this Order, the Designated Staff may refuse to accept or may postpone processing of any Bid or any Offer. Any decision to postpone the processing of a Bid or an Offer, or to reject a Bid or Offer made by the Designated Staff shall be final. The Designated Staff may also establish terms and conditions before a Bid or an Offer will be processed in the future. Any person who is not satisfied with the terms and conditions established by the Designated Staff before a Bid or Offer will be processed in the future may appeal such decision in writing to the Board.

7(13) On each Reallocation Day, the Designated Staff shall qualify all valid Bids with respect to each Offer.

If there is more than one valid Bid with respect to an Offer the amount available for allotment shall be apportioned among all such eligible bidders in equal amounts, provided that any Bid received from an eligible person shall be rejected if the amount available for allotment among such eligible bidders is less than 6,000 75-pound bags of table potatoes (and, following such rejection, the Designated Staff shall recalculate the amount available for allotment amongst all remaining eligible bidders in equal amounts); and further provided that upon recalculation any Bid received from a registered table potato producer bidder shall be rejected if the amount available for allotment amongst the remaining eligible bidders is less than 6,000 75-pound bags of table potatoes and such bidder has not been allocated a table potato quota of that type.

7(14) Following the operation of a Retirement and Annual Table Potato Quota Reallocation Program for an Offer, the Designated Staff shall report to the Board particulars of the Offer, the number of Bids received, and particulars of the successful Bids. The Board will review such report and if satisfied, in its sole discretion, that there have been no irregularities or deficiencies in the operation of that Retirement and Annual Table Potato Quota Reallocation Program, the Board may pass a resolution to accept such results.

Following the acceptance of the results of a Retirement and Annual Table Potato Quota Reallocation Program for an Offer, the Board will pass a resolution to allot quota units to the successful bidder and to cancel quota units of successful offerors in order to implement such results.

The allotment of quota units of a type to a successful bidder who is a registered table potato producer will be effective as of the first day of July after the date on which the results of a Retirement and Annual Table Potato Quota Reallocation Program were accepted by the Board and shall be applicable to the marketing of table potatoes harvested after such effective date.

The allotment of quota units of a type to a successful bidder who is an eligible person will be effective upon the first day of July after the date on which the results of a Retirement and Annual Table Potato Quota Reallocation Program were accepted by the Board, provided that such allotment shall only be applicable with respect to crop grown by that successful bidder during the crop year commencing on such date.
The cancellation of quota units of a type allotted to a successful offeror will be effective as of the last day of June after the date on which the results of a Retirement and Annual Table Potato Quota Reallocation Program were accepted by the Board, provided however that the offeror shall be entitled to continue marketing table potatoes of that type after such date, provided those table potatoes were produced in the prior crop year and are of an acceptable quality, under the systems operated by the Board.

7(15) Following the Board’s consideration of the results of a Retirement and Annual Table Potato Quota Reallocation Program, each participant in the Retirement and Annual Table Potato Quota Reallocation Program will be advised in writing by the Designated Staff whether such participant’s Offer or Bid was successful, and if the Bid or Offer was successful, and if successful, the effective date of the allotment or cancellation.

7(16) All funds submitted by unsuccessful bidders as proposed administration fees will be returned to such bidder.

All surplus funds submitted by successful bidders as proposed administration fees will be returned to such bidder.

Retirement fund
8(1) All administration fees paid to the Board by successful bidders will be allocated to the Retirement Fund.

8(2) All retirement payments made by the Board to successful offerors will be paid from the Retirement Fund.

Transfer assessment and transfer assessment pool
9(1) Each Offer shall be deemed to be reduced by a Transfer Assessment equivalent to 10% of the quota units offered for cancellation. In the event such calculation results in a fraction, the Transfer Assessment shall not include such fraction.

9(2) If an Offer is accepted, in whole or in part, as provided herein, the Transfer Assessment shall be credited to the Transfer Assessment Pool.

9(3) The Transfer Assessment Pool will be maintained on a gross 75 pound bag basis, without distinguishing types.

Allocation from the transfer assessment pool
10(1) The quota units credited to the Transfer Assessment Pool may, from time to time, be allocated by the Board as follows:

(a) a total of 50% to eligible producers who have applied in writing for an increase in their annual table quota during the application period commencing December 1, and terminating December 31 of the previous calendar year, in equal numbers of quota units, provided that the quota units allocated to an eligible producer shall not be increased above maximum quota; and

(b) a total of 50% to those persons who are on the waiting list referred to in section 4 of this Order, in the order of priority set out on such waiting list, in amounts of 6,000 quota units each.
10(2) Applicants who are allotted quota units pursuant to clause (1)(b) shall be eligible to request allocation of additional quota units in subsequent allocations pursuant to clause (1)(a).

10(3) A person who receives an allotment under clause (1)(b) shall not be entitled to submit an Offer which would result in the annual table quota allotted to such person being reduced below 6,000 75-pound bags of a type of table potatoes for a maximum of five years from the date of such allotment.

10(4) An eligible producer may be a successful bidder and may receive an allotment of quota units under clause (1)(a) on the same Reallocation Day.

Type and effective date of allocation from pool
11 In making an allocation from the Transfer Assessment Pool, the Board will specify the type of such allocation and the effective date of the allotment.

Five year moratorium re new producers
12 In the event a person is allotted an annual table quota (the "initial allotment") and becomes a registered table potato producer pursuant to an application to the Board under section 4 of this Order, such person shall not be entitled to submit an Offer which would result in the annual table quota allotted to that person being reduced below the initial allotment for a minimum of five years from the date of such initial allotment.

Five year moratorium re bidders
13 A successful bidder will not subsequently be eligible to receive a retirement allowance in connection with the cancellation of the equivalent number of quota units under the System if all quota units allotted to such producer are cancelled within five years of such successful Bid. In the event such person subsequently submits an Offer of all quota units allotted to such person during such five-year period, an equivalent number of quota units shall be debited against the number of quota units offered, so that the offeror will only be entitled to receive a retirement payment with respect to 90% of the balance of such quota units, and the quota units so debited shall be credited to the Transfer Assessment Pool.

Notification lists
14 Any person who is not an eligible producer and who wishes to participate in a Retirement and Annual Table Potato Quota Reallocation Program as a bidder may request in writing, in such form as the Board may prescribe for such purposes, that such person's name be added to the Notification List. Any person added to the Notification List shall be deleted from that List one year after being added to such List. A person on such List may request, in such form as the Board may prescribe for such purposes, that such person's name be included on such list for a further one year period, provided such application is made not earlier than one month prior to the date upon which such person's name would otherwise be deleted from such List.
**Five year moratorium re increased annual table quota**

15 In the event a person is allocated an increase in annual table quota under section 8 of this Order, such person shall not be eligible to receive a retirement payment in connection with the cancellation of the equivalent number of quota units under the System within five years of such increase. In the event such person submits an Offer of quota units allotted to such person during such five-year period, a number of quota units equal to the number of quota units allocated to such person under section 8 of this Order within such five-year period shall be debited against the number of quota units offered, so that the offeror will only be entitled to receive a retirement payment with respect to 90% of the balance of such quota units, and the quota units so debited shall be credited to the Transfer Assessment Pool.
